Our Providers

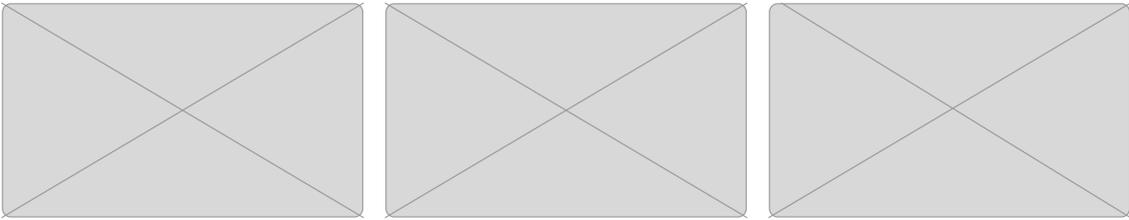

Who We Serve

We take the hassle out of healthcare.

We support organizations that want to increase user engagement, decrease healthcare costs, and provide patients with easier access to care across multiple channels.

The Problems by Numbers

3,500,000 People go without care because they cannot access transportation

660,893 US residents without access to a Qualified Health Center or Rural Health Clinic

9 out of every 10 adults reported delaying or going without care due to costs

How We Solve Them: 3 Easy Steps to Care

We're on a mission to provide healthcare that is quick, affordable (only \$50 a visit!), high-quality, and easily accessible. Here's how it works.

Create an account & enter payment information

Provide some medical background & reason for visit

See a provider, and start feeling better!

[Start Your Visit](#)

Our Features

Quickly deploy a telemedicine service within your organization no matter what your goal is. From giving your employees immediate access to care 24/7 to expanding your health system's care to an entire community: we make it simple.

- Customizable platform
- Custom EHR integrations with C-CDA feeds
- Marketing assistance for better usage
- Facilitated visits for special use-cases.

What Separates Us

Follow-On Care Coordination
Direct patients to the appropriate place of care when in-person follow up attention is necessary.

Flexible Provider Options
Bring your own doctors, use ours or establish a hybrid staffing model with a mix of both.

Local Providers
RelyMD points patients to local providers. We can deliver better care and higher utilization rates with regional doctors.

Who We Serve

For Hospitals and Healthcare Systems
Patient continuity, decreased readmissions, and increased census are all action items that can be checked off when implementing telemedicine as an additional offering. [Learn More](#)

For Employers
If you're looking for ways to increase employee engagement and productivity while lowering your healthcare costs, telemedicine should be top of mind. [Learn More](#)

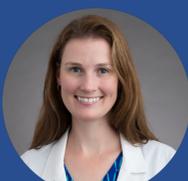

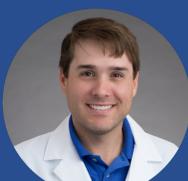

For Brokers
If you're looking for ways to increase employee engagement and productivity while lowering your healthcare costs, telemedicine should be top of mind. [Learn More](#)

For Nursing Homes
If you're looking for ways to increase employee engagement and productivity while lowering your healthcare costs, telemedicine should be top of mind. [Learn More](#)

For EMS
If you're looking for ways to increase employee engagement and productivity while lowering your healthcare costs, telemedicine should be top of mind. [Learn More](#)

For Brokers

Not only is RelyMD available 24/7, but it's a fraction of the cost compared to other facilities – no matter what time your clients need care. [Learn More](#)

For Nursing Homes

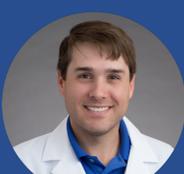

Nursing home facilities and SNFs who utilize telemedicine are seeing unnecessary hospitalizations avoided and are creating a new value propositions that gives them an edge. [Learn More](#)

For EMS

We supply EMS providers with an additional resource to use in the delivery of medical care to their patients. Telemedicine would allow patients to avoid an expensive transfer. [Learn More](#)
